

LAVO BOT™

2x YOUR PRODUCTION RATE. AUTOMATE SURFACE CLEANING.

The Lavo Bot is a robotic surface cleaner designed to automate exterior surface cleaning parking garages, gas stations, drive-thrus, and sidewalks—quickly, consistently, and without manual effort. Lavo Bot helps you complete jobs faster, boost profits, and grow your business by automating the repetitive, labor-intensive work of surface cleaning.

Evolve Your Operations

Workforce Multiplier

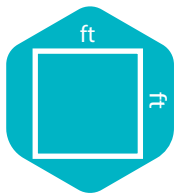

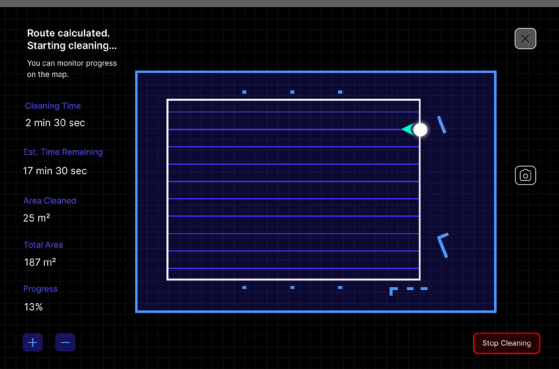

Forget the grueling, labor-intensive, tedious work of surface cleaning. Focus your team on higher-margin services.

Growth Without Growing Costs

Transform surface cleaning from a low-margin, labor-intensive, and tedious task into a profitable, scalable service offering.

Real ROI, Real Fast

Turn one tech into a high-output team and start scaling immediately with reliable, repeatable, round-the-clock cleaning.

1. DEFINE YOUR CLEANING AREA

Map the work area in under 5 minutes using the controller.

2. REVIEW YOUR MISSION PLAN

Approve planned route.

3. AUTOMATE CLEANING

Activate autonomous cleaning.

4. SAVE & REPEAT

Return, tap, and deploy again—no retraining, no reprogramming.

LAVO BOT 2 PRODUCT SPECIFICATIONS

ITEM

SPEC

Max. Hose Length	250 ft.
Total Product Weight (robot only, without battery)	51lbs
Total Product Weight (robot only, with Battery)	57 lbs
Surface Cleaner Compatability	Compatible with any surface cleaner with 12 in. handle base
Max. Surface Cleaner Size	49 inches
Water Reclamation Capabilities	Compatible with use of water reclaim system
GPM	4-20 GPM
Max. Pressure	4,500 psi

ITEM

SPEC

Cleaning Speed	Up to 7,500 ft ² /hour
Inlet Hose Connection	3/8" (M) quick connect
Inlet Water Max. Temp	212°F
Battery Voltage	56V
Battery Type	Supports 56V rechargeable lithium batteries
Battery Life	Up to 6 hours with 7.5ah lithium battery
Battery Charge Time	Approx. 45 minutes
Controller Operating Range	1 mile+ (within unobstructed line of sight)
Waterproof Rating	Equivalent to IPX6

ASK A CUSTOMER

"You quickly recover that investment in just a couple of months, not even a year, so it's basically a no-brainer. On the cleaning side, our biggest operating expense with traditional surface cleaning is labor, which makes up more than half of the cost of operation. With this approach, you can reduce operating expenses by 40 percent or more. You can work faster and offer services at a lower price, making you more competitive with your clients."

Francisco Oliveras | Owner
